## Headstone Resetting Waiver

The City of Boulder City, at the request of the family, will reset a marker if paid for by the family. We want the family to be aware that the process of removing the current concrete from the headstone may further deteriorate the headstone, as often the concrete has bonded to the granite. Over time, even items such as Headstone's and the concrete border will deteriorate. City staff will continue to handle the headstone with care and take all reasonable precautions to prevent any damage to the headstone. However, if damage occurs during resetting, Boulder City and its staff shall not be liable for such damage. By signing below, you acknowledge the terms spelled out above and the fact that routine mowing and trimming activities performed at the cemetery may also result in wear on the headstone and the concrete border.
