

PROTECT OUR PAST, INVEST IN OUR FUTURE

Boulder City is a unique community; our homes and businesses within the Historic District reveal much about our past. When whole neighborhoods are preserved, we share the story of our City's beginnings with visitors and residents alike. Protecting and enhancing the landmarks and districts which represent distinctive elements of Boulder City's historic, architectural, and cultural heritage benefit the entire city.

Boulder City is seeking input from the community on proposed changes to the City's historic preservation ordinance. The proposed draft ordinance would require property owners within the district to receive approval from the City for structural changes and/or building demolition based on updated design guidelines and the Secretary of Interior's Standards for the Treatment of Historic Properties.
